# Performance Chiropractic

Jan-8-2010

Delson Computer has taken great care of our staff and our office's PCs, network, printers, and Medisoft for several years. I signed a support contract with them and I've stopped going anywhere else since.

They're very quick and they don't nickel and dime you like other companies in town.

Neither I nor my staff is technical and we'd prefer to remain that way. We prefer to throw a problem over the fence to someone else until it gets resolved. That's another good thing about them. They seriously own a problem until it's resolved and they keep us informed along the way.

Delson Computer has helped us through upgrades on our PCs and servers, upgraded our network and our medical software (3 or 4x). They've saved Performance Chiropractic thousands of dollars annually in Medisoft support. Unlike in the past, we no longer need to pay expensive Medisoft VAR consultants from upstate SC to update our software or database.

I absolutely recommend Delson Computer.
