

April 18, 2010

Dear Norm,

On behalf of the REMEMBER Program of the Charleston Jewish federation, I want to thank you for the exceptional video you created for the 2010 Yom HaShoah program. The video was very well received by the 700 plus people in attendance and was described as captivating and moving. Your attention to detail and precision was evident from the outset of the piece to the conclusion 17 minutes later.

It was truly wonderful to see so many members of our community gathered together in the Charleston Music Hall to commemorate the 65<sup>th</sup> anniversary of the liberation of the concentration camps. The program was hailed as one of the best as the post event press coverage on television and in print was positive and extensive.

The REMEMBER Program was founded to combat prejudice and hatred while simultaneously promoting respect and tolerance for all peoples. It is through the ongoing support of talented people like yourself the REMEMBER Program is able to fulfill its mission. Thank you again for your time and energy!

It would be my sincere pleasure to recommend you for any job in the future. Moreover, I will personally contact you when future programs and events require high caliber professional video and computer program support.

Best,

Lara D. LeRoy  
Director REMEMBER Program
